

Clear Peak defines Business Intelligence as the practice of harnessing the power of data to give you actionable insight, bottom-line improvements and a competitive advantage.

ABOUT CLEAR PEAK

As Business Intelligence pioneers, Clear Peak began building our reputation for excellence in BI and data-driven solutions in 2000. Since that time, we have facilitated more than \$376 million in bottom-line improvements for our clients. Our management and technology consultancy transforms data into a strategic asset for your business.

Clear Peak's data-driven solutions use specialized mathematical modeling to provide the insight you need to gain an uncommon advantage over your competition. Our holistic approach addresses people, processes and technology to build a foundation for revenue growth and cost optimization. After working with Clear Peak, you will feel confident making critical, business-impacting decisions based on accurate, reliable and timely data.

We bring the experience and knowledge gained from all sides of the table—as seasoned CEOs, CIOs, CTOs, CMOs, CFOs, senior technologists, management consultants and software vendors. Clear Peak's BI experts provide clarity and return on investment for companies across a broad spectrum of industries. Our services include:

We base our reputation on delivering tangible results quickly, and supporting you long after we implement your solution. That's why 90% of executives from client companies bring us along as they grow their individual careers in other roles and organizations.

Clear Peak and our data-driven solutions will position you for growth. We recognize and seize untapped revenue and cost-saving opportunities, then go further to predict what's next. For more facts about Clear Peak, visit us online at www.clear-peak.com or call us at (303) 470-9230.
